- Auxiliary Input
- Switchable Illumination Color

CD Audio/MP3/WMA Player

The enhanced CD player is compatible with regular shaped 12cm disks in CD Audio, CD-R, CD-RW format as well as Multisession CD, the CD player is also capable of playing CDs containing MP3 and WMA files. If available, the ID3 tags for directory, artist, album and title can be displayed. Copy protected CDs which do not comply with international audio CD standards (Red Book) may not be supported.

Programmable Steering Wheel Remote Control Interface

This programmable interface allows the operation of the head unit via the OEM steering wheel remote control of the car.

Changer Control

A stereo preamp input connection for VDO Dayton MP3 CD Changers, USB or iPod adaptors to enjoy even more music when driving long distances.

Auxiliary Input

The Aux In delivers the possibility for a convenient connection of further sources to the head unit.

Switchable Illumination Color

In order to achieve an optimized integration in various dashboards, you are able to switch illumination color of the head unit: Orange/Green/Dual.

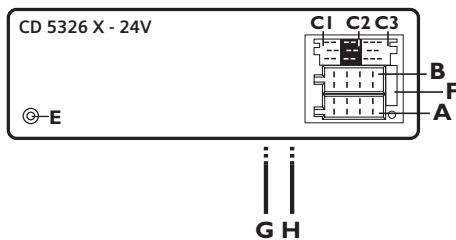

24 Volt

The higher operating voltage allows the installation in trucks and busses without power converters

RDS Tuner & CD/MP3/WMA Player
